I will work on this. Does this mean we can start pdf'ing the document after I incorporate the edits? Thanks.

Just a few last niggling things. I don't need to see Appendix A again. Appendix A is approved.

DER 1 :

p. 2-2: Still need to have extra space between paragraphs.

p. 3-6, Section 3.5, third paragraph: need space before “analyzed” and “for” in last sentence.

DER 2:

On the figures. The figures relate to Newark Bay and should have Roman numerals in the table and on the figures.

DER 4:

p. 1-9: Should be a space between paragraphs.

DER 6:

Extra period where sentence was taken out on the top of page 2-23.

Didn't notice this before (my bad): In the equations “where” is variously capitalized and not. Should try to be consistent. Find and replace would work.
